Istanbul, Türkiye

SUMMARY

I build systems that solve real business problems, hold up in the field, and let teams spend less effort to ship more. From idea to a product that scales, with LLM-native tooling. Architecture, engineering and technical leadership in one place.

5+ years of experience · 10+ live products

EXPERIENCE

Senior Full Stack Developer

Jan 2025 – Present

NarPOS Yazılım Tic. A.Ş. · Istanbul

- Optimized queries on SQL Server and PostgreSQL and delivered performance work that cut system resource requirements to a minimum.
- Built end-to-end products in an NX monorepo spanning Angular, React, .NET Web API, Entity Framework and Node.js.
- Set up centralized logging with Graylog, with dashboards and alerting; automated error tracking and operational reporting.
- Designed and ran CI/CD pipelines that made releases more reliable.
- Built AI-assisted developer tooling and automation workflows with Model Context Protocol (MCP) integrations.

Chief Technology Officer

Oct 2024 – Jan 2025

NarPOS Yazılım Tic. A.Ş. · Istanbul

- Led the engineering team and owned the technical roadmap, phase plans and scaling strategy.
- Ran requirements sessions with stakeholders and turned business needs into technical solutions.
- Reported sprint progress and technical documentation to management on a regular cadence.

Full Stack Developer

Jul 2022 – Oct 2024

NarPOS Yazılım Tic. A.Ş. · Istanbul

- Developed the company's web, mobile and desktop apps (Angular, React Native Expo, .NET WinForms).
- Designed and built the C# / ASP.NET Web API layer; ran migrations and schema management on SQL Server.
- Took an active part in sprint planning with Scrum and Agile.

Customer Relations Specialist

Oct 2021 – Jul 2022

NarPOS Yazılım Tic. A.Ş. · Istanbul

- Analyzed and solved customer installation and support needs on site and through the call center.
- Handled heavy database administration and scripting in SQL.

SKILLS

AI & LLM TOOLING

MCP, Claude Code, Agent SDK, LLM Entegrasyonu

FRONTEND

Angular, React, Next.js, React Native, TypeScript

BACKEND

C# / ASP.NET, .NET Web API, Entity Framework, Node.js, Python

DATABASES

SQL Server, PostgreSQL, Firebase, Supabase

DEVOPS & TOOLING

CI/CD, Docker, Dokploy, Graylog, NX Monorepo, Git

PUBLISHED PACKAGES

codeagent-sync NPM

crypt-sync NPM

openapi-rest-mcp NPM

AssemblyServiceRegistrar NUGET

EnvironmentConfigurator NUGET

EDUCATION

İstanbul Üniversitesi

Associate · Computer Programming
Sep 2023 – Jul 2027

İstanbul Ticaret Üniversitesi

Bachelor's · Computer Engineering
Sep 2021 – Jul 2023

Sâmiha Ayverdi Anadolu Lisesi

High School · Science & Mathematics

— SELECTED PROJECTS

Cofiner cofiner.com 2025
Accounts, cards, debts and plans in one view — every number backed by a double-entry ledger.
Mobile · Web · API · Website · TypeScript · Next.js · React Native · Expo

Tezgahtar tezgahtar.tr 2026
A next-generation retail POS where cashiers sell without errors — and without thinking.
API · Web · Desktop · Website · .NET 10 · EF Core · PostgreSQL · React 19

Ege Çocuk egecocuk.com.tr 2025
A publisher platform that brings printed books to life through QR-linked digital content.
Web · Admin · Next.js · React 19 · TypeScript · Tailwind CSS

AI Tooling & Open Source github.com/sametbrr 2025
Making production systems and developer workflows accessible to AI agents.
Skill · MCP · npm · NuGet · MCP · Claude Code · Agent SDK · Function Calling

Giy-Teks giytekstasimacilik.com 2024
An SEO-first single-page site for a transport cooperative in Tekstilkent, Istanbul.
Website · HTML · Tailwind CSS · JavaScript · Schema.org

NarPOS narpos.com.tr 2021
A Windows restaurant POS: orders, tables, kitchen screen and 60+ integrations.
Desktop · Mobile · Kiosk · Admin · .NET Framework · C# · WPF + Prism · DevExpress

MinimalBlock minimalblock.com 2021
A tech publication on blockchain, the metaverse and AI, running on its own CMS.
Website · Admin · API · ASP.NET Core · .NET 5 · EF Core · SQL Server

More products: NarCost — An inventory platform that matches POS sales to recipes and stock to reveal true cost · NarCloud — NarPOS in the cloud — a POS ecosystem that runs a restaurant's entire operation on one platform · NarBoss — Multi-branch, real-time reporting and remote approval app for restaurant owners · NarGO — A courier app that dispatches NarPOS delivery orders and tracks them end to end · NarMenu — QR menus, table ordering, waiter calls and online payment for restaurants.
